

GENETICALLY ENGINEERED FOODS AND HUMAN HEALTH

A Cross-Canada Speakers' Tour

**Do you have questions about GE-GMO foods?
Hear a scientific point of view on the risks to human health.**

Join **Dr. Thierry Vrain**, a retired genetic engineer who after a 30-year career with Agriculture Canada now speaks against GE technology, and **Mr. Tony Mitra**, an internationally active citizen journalist and food security activist, to discuss your concerns about GE foods, and how you can take action.
